Creator and
gaming
effects

AI Assistants know
your daily context

More creative,
productive, &
collaborative

Across everything
you do

Today – Enhancements

Tomorrow – Workflows

Our Vision for the AI-Ready Computer

An AI-ready PC must offer a wealth of experiences. We will use our scale, history, and relationships to drive the trust and compatibility users need in this new era of AI software.

How Intel plans to lead the AI PC transformation

DEVICES

Ship the largest install base of AI-ready PCs with Intel® Core™ Ultra

How Intel plans to lead the AI PC transformation

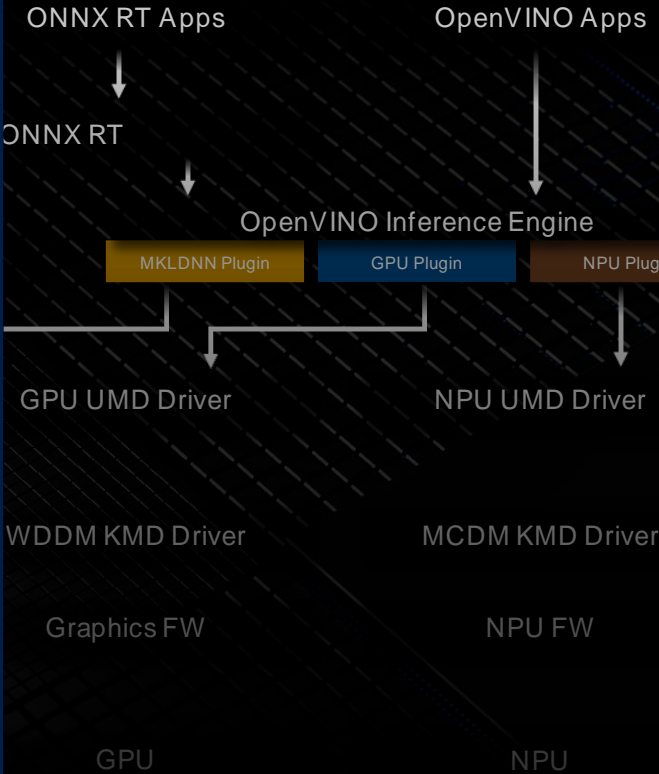

DEVICES

Ship the largest install base of AI-ready PCs with Intel® Core™ Ultra

SOFTWARE

Enable a library of AI-accelerated apps that's already ~3X other vendors*

*Based on public AI software roadmap releases and/or commitments from AMD, Qualcomm, and Intel as of 09 September, 2023.

How Intel plans to lead the AI PC transformation

DEVICES

Ship the largest install base of AI-ready PCs with Intel® Core™ Ultra

SOFTWARE

Enable a library of AI-accelerated apps that's already ~3X other vendors*

SIMPLICITY

Give users a frictionless AI experience with great compatibility

*Based on public AI software roadmap releases and/or commitments from AMD, Qualcomm, and Intel as of 09 September, 2023.

+ Functionality provided by free application plugin ported by Intel® to enable Core Ultra Processor compatibility.

Watch what they do, not what they say

Competing vendors fall short
of Intel's depth and breadth of
AI tools and workloads

Qualcomm PC¹

- TensorFlow
- PyTorch
- ONNX
- Caffe/Caffe2

- Windows Studio Effects
- Stable Diffusion

- UL Procyon

1. Based on QCOM Neural SDK frameworks (www.tiny.cc/kkzavz) and Microsoft Build disclosures (www.tiny.cc/qkzavz) as of 09 September, 2023.

AMD PC²

- TensorFlow
- PyTorch
- ONNX

- Windows Studio Effects
- Stable Diffusion

2. Based on Ryzen AI frameworks (www.tiny.cc/bkzavz) and Ryzen AI applications (www.tiny.cc/ckzavz) as of 09 September, 2023.

The “killer app” is choice

Only Intel’s deep relationships
pave the way for widespread AI
accessibility.

With a roadmap of over 100 ISVs
& features, **AI compatibility
starts with Intel.**

100+

Intel technologies may require enabled hardware, software or service activation.

Announcing PyTorch backend for Intel® Core™ Ultra Processors

Preview available in OpenVINO 2023.1

A close-up photograph of an Intel processor die, showing its intricate circuitry and the number '08923' in the top left corner. The die is mounted on a dark blue carrier.
