

New Intel Supplier Information Management Platform Coming Soon!

Dear Supplier,

Intel is making exciting changes aimed at simplifying and improving how we do business together. Beginning in early November and through 2024, suppliers will be invited via email to join a new Intel Supplier Information Management Platform called Graphite Connect.

As an important part of Intel's supplier network, you can expect the following benefits:

- Significantly reduced supplier onboarding surveys.
- Simplify how we manage and share the data necessary for us to conduct business.
- Empower buyers and sellers to manage their data more accurately and consistently and share it in an easier and secure way.
- Ensure you only need to enter your supplier information once, which can be easily shared with other customers at no charge to you.

No action is required at this time. We will provide additional information via email or our [Intel Graphite Connect page](#) in the coming weeks, prior to the November deployment of Graphite Connect, to ensure you are prepared for this change.

For more information about the Graphite Connect platform experience, [please click here](#). You can also access a helpful Graphite Connect [Frequently Asked Questions](#) page.
