## Description of Change to the Customer:

The Intel SKUs listed in the products affected table will have the following changes.

To ensure uninterrupted supply of materials, Intel is qualifying a second source substrate supplier Daeduk (DDE).

Background: Intel® Ethernet Controller X710-BM2, Intel® Ethernet Controller XL710-BM1 and XL710-BM2 Products will now have dual source vendors in order to ensure continued production these Controllers we are qualifying another substrate vendor Daeduk (DDE).

Both suppliers have been certified and passed the Intel qualification process.

The Intel® Ethernet Controllers SKUs listed in the products “affected table” below will exhibit substrate supply from either vendor.

## Customer Impact of Change and Recommended Action:

Intel considers this change a Minor Change and anticipates no impact to customers. No new Intel part number will be created for the additional supplier and mixing of substrate materials between suppliers will be allowed as there is no difference in the visual appearance or quality of the additional supplier.

Please see your Intel Representative with any questions or concerns.
