Product Change Notification

Change Notification #:   **119551-03**

Change Title: **Select Intel® Server Products and Accessories, PCN 119551-03, Product Discontinuance, Product End of Life**
Reason for Revision: Adding MM#99C8ZX to EOL Roadmap

Date of Publication: **July 06, 2023**

Key Characteristics of the Change:

Product Discontinuance

Forecasted Key Milestones:

Product Discontinuance Program Support Begins	May 09, 2023
Orders for Discontinued Products Become Non-Cancelable	May 09, 2023
Last Product Discontinuance Order Date	June 30, 2023
Last Product Discontinuance Shipment Date	December 22, 2023

Description of Change to the Customer:

Reason for Revision: Adding MM#99C8ZX to EOL Roadmap

The six SKUs stricken out on the "Products Affected/Intel Ordering Codes" table below have been removed from the EOL roadmap and will continue to be both manufactured and available.

Intel is announcing the discontinuance of the select Intel Server Boards, Spares and Accessories listed in the "Products Affected/Intel Ordering Codes" table below.

Intel will make best efforts to support all orders placed between the Non-Cancelable and Non-Returnable (NCNR) and the Last Product Discontinuance Order (LPDO) dates. After the LPDO date existing inventory is still orderable, under NCNR terms, and will be filled on a first come first served basis. Deliveries must be accepted within 15 days from the system build date, or order placement date, whichever is later.

Final purchase orders are non-cancelable and non-returnable, notwithstanding any conflicting terms in our quotes, purchase order acknowledgement or Distributor agreements.

Intel has enabled MiTAC to manufacture and sell the discontinued DSG products. MiTAC is an edge-to-cloud IT solutions provider; has been a longstanding partner of DSG, and is the current DSG ODM, manufacturer, test, and integration partner for these systems. Intel and MiTAC are working together to ensure a smooth transition and to support you throughout this process. For information concerning these products, please email contact: DSGserverinfo@mitac.com or contact your Intel Authorized Distributor.

Engineering and Support Guidance for Discontinued Products:

1. One Sustaining Cycle Release per year is planned during the Extended Life Period. Final release will be delivered in 2026.
2. No new features or enhancements should be expected, however ECOs may be required during the extended life period to maintain supply lines (e.g., to qualify new vendor due to a component EOL).
3. Intel will provide reasonable commercial efforts in debugging issues during the warranty period for the product after the PDA date has passed. Fixes cannot be committed, but Intel will endeavor to provide reasonable workarounds for the product.

Customer Impact of Change and Recommended Action:

Please determine your remaining demand for this product and/or evaluate additional sources (if applicable). Lead-times on products with announced product discontinuance can typically stretch to 12 weeks and volumes are not buffered during the PDA period.

Please work with your Intel representative on your quarterly demand forecast in order to reduce lead-times to 2-4 Weeks.

Please contact your local Intel Sales Office or Distributor if you require more information or need assistance in selecting a replacement product.

Milestone dates are estimates and subject to change based on business and operational conditions.
