

Product Change Notification

Change Notification #: 818436-00

Change Title: Select Intel® Optane™ SSD P1600X Series,
PCN 818436-00, Product Discontinuance and End of Servicing,
End of Life, End of Servicing Updates

Date of Publication: March 22, 2024

Key Characteristics of the Change:

Product Discontinuance and End of Servicing

Forecasted Key Milestones:

Last Product Discontinuance Order Date:	September 30, 2024
Last Product Discontinuance Shipment Date:	December 31, 2024
End of Servicing Updates:	June 28, 2024
End of Interactive Support:	December 31, 2024

Description of Change to the Customer:

The Intel SKUs listed in the products affected table will End of life, End of Servicing Updates, and End of Interactive Support.

Customer Impact of Change and Recommended Action:

Please determine your remaining demand for the products listed in the "Products Affected/Intel Ordering Codes" table and place your "Last Product Discontinuance Order" in accordance with the "Key Milestones" listed above.

ESU and EOIS dates are effective per the End of Service Milestones above and as of the Date of Publication of this PCN. This notification is separate from Intel's warranties, supply guidance, and agreements. It does not alter, expand, or extend any existing contractual rights or obligations.

After ESU, Intel will no longer provide Baseline Servicing to the broad market, such as through IPU or other similar update processes. After EOIS, Intel concludes providing interactive support, including technical support provided through web tickets, telephone, chat, community support forums, or email inquiries.

Please contact your local Intel Field Sales representative if you have any further questions about this End of Life notice

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
