

Product Change Notification

Change Notification #: 818976-01

Change Title: Intel® FPGA PAC N3000 BD-NVV-N3000-3,
PCN 818976-01, End of Servicing,
End of Servicing Updates for Interactive Support
**Reason for Revision: Update EOIS Milestone, and
Publish as a Public PCN**

Date of Publication: May 28, 2024

Key Characteristics of the Change:

End of Servicing

Forecasted Key Milestones*:

End of Interactive Support Date	May 28, 2024
---------------------------------	--------------

*All forecasted key milestones are subject to change

Description of Change to the Customer:

Reason for Revision: Update EOIS Milestone, and Publish as a Public PCN

The Intel® FlexRAN software operation on Intel® Vista Creek MMID (999PJD) will reach End of Interactive Support (EOIS) on May 24, 2024. Dates are effective immediately per the Forecasted Key Milestone above and as of the Date of Publication of this PCN.

Customer Impact of Change and Recommended Action:

This notification is separate from Intel's warranties, supply guidance, and agreements. It does not alter, expand, or extend any existing contractual rights or obligations.

After EOIS, Intel concludes providing interactive support, including technical support provided through web tickets, telephone, chat, community support forums, or email inquiries.

Please contact your local Intel Field Sales representative if you have any further questions about this EOIS notice.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
