

INTERNAL[®]

AirgapAI

accelerated by **intel**.

100% Local AI for offering fast, scalable, and secure AI

AirgapAI is an advanced on-device AI edge solution that runs completely locally to ensure maximum security, control, and speed, for 1/10th the cost of other Copilot solutions. Powered by our patented Blockify[®] engine, it delivers 78X enhanced LLM accuracy and virtually eliminates hallucinations by ingesting and validating data from any source. With its innovative Entourage Mode, multiple specialized AI personas collaborate seamlessly to provide domain specific insights and granular, role-based data governance. Experience true data ownership, rapid deployment, and zero network latency while leveraging cutting-edge real-time AI performance tailored for modern enterprise needs.¹

Key Features

Blockify for 78X LLM Accuracy	No Network Connection	Bring Your Own Model (BYOM) Open Source LLMs	Multiple Specialized Chatbots
-------------------------------	-----------------------	--	-------------------------------

Vertical Markets:

- Education
- Government
- Medical
- Financial Services

Use Case:

- Local Enterprise Chat Assistant

Country/Geo:

- Worldwide

“ Now with Internal, we generate the outcome in seconds, not hours. It has driven robust conversations about customers’ opportunity to save IT costs.”

Bob Venero
CEO, Future Tech
